Project Name	Edututor ai
Maximum Marks	4 Marks

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Our team members had gathered and we had discussed about the project .

And we had decided to take the problem statement on:

In today's education landscape, students often lack personalized learning support, while educators face limited time to effectively assess and monitor progress. This creates a strong need for an AI-powered assistant that can streamline instruction, automate evaluations, and enhance learning outcomes for everyone involved.

Step-2: Brainstorm, Idea Listing and Grouping

In brainstorming we shared our ideas and we selected one of the problem statement and later we shared our works to do the project..
